Nikita R. Neeli
Athens, GA • 770-309-8602 • Nikita.Neeli@uga.edu • nikitaneeli.com

OBJECTIVE

Computer Science student with hands-on experience in AI-driven automation and health-technology research

EDUCATION

University of Georgia Morehead Honors College Athens, GA
*Bachelor of Science in **Computer Science** (Concentration in **Data Science**)*
*Minor in **Cognitive Science** and Certificate in **New Media** (Dev. Track)* Expected Graduation: May 2028

Relevant Coursework: Software & Web Development, Data Structures, Data Science and Applied Machine Learning II

TECHNICAL EXPERIENCE

UGA CAES Office of Information Technology, *Web Team Student Assistant* | Athens, GA January 2026 - Present

- Maintain 500+ websites and track site ownership and status for 700 content contributors using **Excel**
- **Automate recurring workflows** by integrating **Claude AI** with **Asana APIs**, to **reduce manual task tracking**
- Manage the Outlook support inbox, respond to stakeholder inquiries, and coordinate website content updates, audits, and onboarding using **WordPress**, **MailChimp**, and **Canvas**
- Implementing a **React** frontend enhancement for CAES's **County Contribution App** to default Budget History to the current inventory year; Support **CWG website** rollout by identifying useful features, testing functionality before deployment, and providing ongoing **UI/UX** feedback and feature recommendations

UGA CARE Center, *Undergraduate Researcher* | Athens, GA May 2026 - Present

- Developing embedded **health-monitoring software** using **Espruino/JS** and **BLE communication** for real-time blood pressure visualization with a Bangle.js watch, applying real-time sensor data processing within a clinical mHealth research context
- Collaborated with an undergraduate researcher to assemble hardware for a standalone OpenMoxie Pod using Raspberry Pi 5 components, supporting laptop-free robot communication in clinical and health fair settings

PROJECTS & RESEARCH

UGA Vertically Integrated Projects for Research, *CoolDawgs Team Member* | Athens, GA January 2026 – May 2026

- Designed, developed, and evaluated wearable **multi-sensor devices** and companion **mobile apps** to monitor animal heat stress
- Designed **AI-driven features** including automated data aggregation, predictive threshold modeling, and a small language model to **reduce dependency on external LLMs** for a wearable system
- Presented research at the Spring 2026 CURO Symposium (Best Paper Award); Selected for **JURO Publication**

UGA DevDogs, *Profile Customization Team Member* | Athens, GA August 2025 - May 2026

- Developed a React profile component for a UGA computer science forum, using MySQL and Drizzle ORM to define user schema fields and persist profile data

Auto MPG, Housing Prices, and Gold Prices Regression Analysis, *Data Science II* | Athens, GA February 2026

- Implemented and evaluated linear and regularized regression models using **ScalaTion** (**Scala**), **PyTorch**, and **scikit-learn** to conduct analysis on three datasets of varying structure and domain

SKILLS

Languages: Java, Python, JavaScript, TypeScript, SQL, Scala, C, HTML, CSS
Frameworks & Libraries: React, Node.js, Drizzle ORM, Pandas, PyTorch, scikit-learn
APIs & Automation: REST APIs, OAuth, Claude API, Asana API, Workflow Automation
Tools & Platforms: Git, GitHub, Docker, MySQL, Firebase, Claude Code (CLI), Microsoft Office, Google Workspace

AWARDS AND CERTIFICATIONS

AI Fundamentals: Foundations for Understanding AI Credential, *IBM SkillsBuild* July 2026
National Hon. Mention, *National Center for Women and Information Technology Aspirations in Computing* Jan 2024
